FOOD FOR THOUGHT...

The paradox of our time in history is that we have taller buildings but shorter tempers, wider Freeways, but narrower viewpoints. We spend more, but have less, we buy more, but enjoy less. We have bigger houses and smaller families, more conveniences, but less time. We have more degrees but less sense, more knowledge, but less judgment, more experts, yet more problems, more medicine, but less wellness.

We drink too much, smoke too much, spend too recklessly, laugh too little, drive too fast, get too angry, stay up too late, get up too tired, read too little, watch TV too much, and pray too seldom.

We have multiplied our possessions, but reduced our values. We talk too much, love too seldom, and hate too often.

We've learned how to make a living, but not a life. We've added years to life not life to years. We've been all the way to the moon and back, but have trouble crossing the street to meet a new neighbor. We conquered outer space but not inner space. We've done larger things, but not better things.

We've cleaned up the air, but polluted the soul. We've conquered the atom, but not our prejudice. We write more, but learn less. We plan more, but accomplish less. We've learned to rush, but not to wait. We build more computers to hold more information, to produce more copies than ever, but we communicate less and less.

These are the times of fast foods and slow digestion, big men and small character, steep profits and shallow relationships. These are the days of two incomes but more divorce, fancier houses, but broken homes. These are days of quick trips, disposable diapers, throwaway morality, one night stands, overweight bodies, and pills that do everything from cheer, to quiet, to kill. It is a time when there is much in the showroom window and nothing in the stockroom. A time when technology can bring this letter to you, and a time when you can choose either to share this insight, or to just hit delete...

Remember; spend some time with your loved ones, because they are not going to be around forever.

Remember, say a kind word to someone who looks up to you in awe, because that little person soon will grow up and leave your side.

Remember, to give a warm hug to the one next to you, because that is the only treasure you can give with your heart and it doesn't cost a cent.

Remember to cherish the moment for someday that person will not be there again.

AND ALWAYS REMEMBER:

Life is not measured by the number of breaths we take, but by the moments that take our breath away.

LOUISVILLE FIRE Pupil's Activity Provider Course

Louisville Fire is an accredited training site, though the Ohio Department of Education. Our paramedics are trained instructors through American Heart Association. We offer the 2 hour CPR and the 4 hour First Aid (sports medicine) that is accepted through Ohio Department of Education. I plan to coordinate with the athletic directors in Stark County to schedule coaches, teachers, and staff according to their needs and availability. I am expecting to hold a class at least 2 times a month every year. I anticipate a very successful year for everyone. If there is any questions at all please feel free to give me a call or e-mail.

We have been getting many requests for volunteers who want to give vaccinations.

I am encouraging all those individuals to register with the Medical Reserve Corps at www.serveohio.org. This will allow for liability coverage, communication with volunteers, easier license checks and consistency in Stark County. Please share this information with anyone who may be interested.

If anyone has questions, please contact me.
